

minCORD 5 Set

ultra compact mini camera

ABSOLUT EXTREM

- ✓ extrem compact
- ✓ extrem light
- ✓ extrem reliable

For pipe diameter from 15 up to 80mm with 15m pull-push cable

Push-Pull version with 13 mm camera head

minCORD 5 Set

ultra compact mini camera

Small and compact: Our minCord cameras are designed to reach even the most difficult-to-reach places. The non-destructively inspection enables you to inspect even the tightest spaces and saving costly disassembles. Tubes, cavities, welding seams, turbines, hollow profiles and castings: The camera head with only 13mm diameter inspects these easily. At the same time, the cameras are so robust that they can easily withstand the harsh field conditions. In this way you locate all surface damages, cracks, sediments and deteriorations with minimal effort.

SPECIFICATIONS
